Outfits

When choosing an outfit, I always suggest neutral/simple colours like black, white, beige, dark blue, sage green, brown, and grey.

Flowy white/beige dresses always look amazing in photos. Neutral coloured shirts with light blue jeans keep things casual and trendy.

Most importantly, wear what you are comfortable wearing!!

Poses

I am here to help make your photoshoot feel nautral and capture candid poses. Worried about being awkward? - Don’t worry I break the ice quickly. These photos are meant to be fun, not awkward!

FAQ

What is this process like?

Once my client and I have confirmed a time and location, I'll send a reminder email a few days before. (Please note, no appointments are confirmed until a deposit has been paid). During the shoot I'll help guide everything and you can expect a mini preview gallery within 48 hours. This preview gallery is your chance to let me know of any editing changes you may want and I will be asking for the remaining balance. Once approved and paid, I'll finish your full gallery and finish it within 2-14 business days.

What happens if its rainy?

I am more than happy to shoot in the rain! We can grab some clear umbrellas and make the most of it or we can absolutely reschedule.

How many photos do I get in a shoot?

Depends on the shoot! Typically for 1 hour of shooting, I have a **minimum** of 25 professional photos for you - with that said I am a chronic overshooter and love providing a large gallery.

How long have you been a photographer?

I started photography at the age of 16. I was focused in the outdoor industry - working with tourism companies and outdoor related companies. I started photographing friends and family on the side for some extra money and eventually found my way into capturing weddings, engagements, couples, grad, and pretty much any photoshoots that came my way! I love photography and I am always ready for just about any shoot - hence the slogan "photographer of everything".
